

HIBERNATE OR DOMINATE?

MINI APPROVED COLD WEATHER WHEEL PACKAGES.
FALL/WINTER 2019.

MAKE TRACKS.

MINI APPROVED COLD WEATHER TIRES.

MINI Approved Cold Weather Tires are made from unique rubber compounds that stay flexible in cold temperatures and help improve braking distances in winter conditions. Plus, their aggressive tread pattern maximizes contact with the road to increase traction on snow and ice.

MINI Approved Cold Weather Tires are designed, developed, and tested in collaboration with industry-leading tire manufacturers to ensure the best possible tire for your specific vehicle.

PIRELLI

DUNLOP

BRIDGESTONE

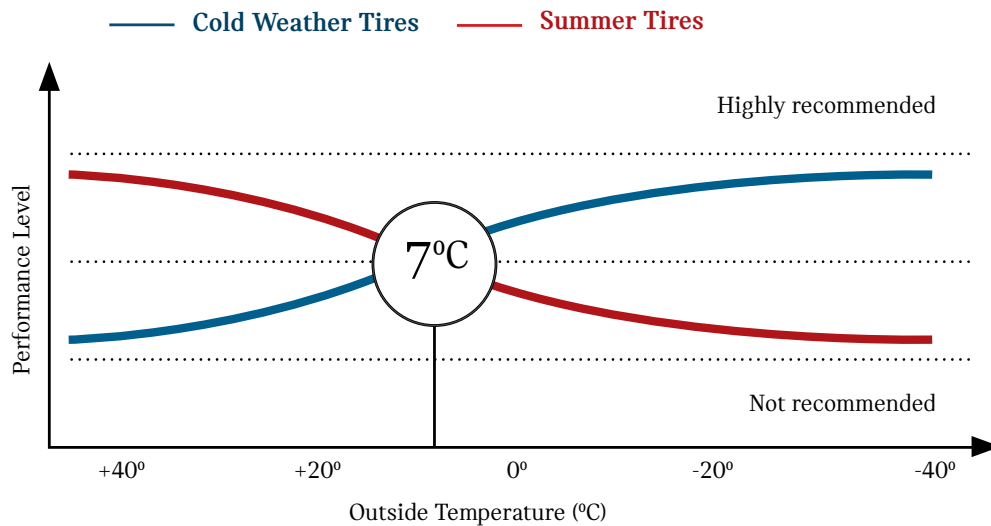

MICHELIN

Actual tires may not be exactly as shown. *Tire pressure loss will affect handling characteristics. Consult your Vehicle Owner's Manual for limitations and restrictions. No association or affiliation with these parties is intended. All other marks are the property of their respective owners.

THE 7 DEGREE RULE.

WHEN TO CHANGE YOUR TIRES.

MINI Approved Cold Weather Tires should be installed when temperatures drop to 7 °C. While the rubber compound of summer or all-season tires will harden at this temperature, resulting in reduced grip, MINI Approved Cold Weather Tires will remain flexible to maximize contact with the road and deliver the best possible traction.

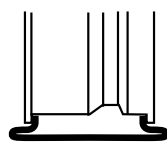

3 REASONS TO CHOOSE MINI APPROVED TIRES.

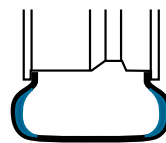

1 Optimized Braking Performance.
MINI Approved Cold Weather Tires maintain their flexibility in the cold, providing shorter braking distances in harsh winter conditions so you can drive with complete confidence on all your winter journeys.

2 Star Approved Safety.
The star symbol on the sidewall of a MINI Approved Tire indicates that it has been engineered and tested according to the most stringent quality standards to offer the highest degree of dynamism, ride comfort, and safety.

3 MINI Run-flat Technology.
MINI Tires feature state-of-the-art Run-flat technology, retaining their form in the event of pressure loss and allowing you to drive for up to 80 km at a maximum speed of 80 km/h*.

Without Run-flat Technology

With Run-flat Technology

NOT YOUR AVERAGE WHEEL & TIRE.

- 1 AGGRESSIVE TREAD PATTERN**
To maximize grip and reduce braking distances on wet, snowy, or icy roads.
- 2 UNIQUE RUBBER COMPOUND**
That remains flexible below 7 °C to maximize contact with the road surface.
- 3 NARROW GROOVES**
To trap snow in channels and ensure it doesn't accumulate on the tire's surface.
- 4 SPECIALLY DESIGNED BLOCKS**
Sharper edges and closer spacing allow these "cells" to enhance grip on snow and ice.
- 5 DEEP SIPES**
An abundance of these tiny slits enhances traction on slippery surfaces compared to all-season/summer tires.
- 6 LIGHT ALLOY WHEELS**
Provide high thermal conductivity for optimized brake ventilation and performance.
- 7 SPECIALLY ENGINEERED & PRECISION CRAFTED**
To perfectly match your MINI's exact safety and design specifications.

WEATHER THE ELEMENTS.

MINI APPROVED COLD WEATHER WHEEL PACKAGES
FOR THE MINI 3 DOOR (2013+) AND MINI 5 DOOR (2014+)

15" Steel Wheel 12

Pirelli® W210 Snowcontrol 3,
